FW65BZ35L

**FW-65BZ35L 4K HDR Professional Display**

## Features

---

### **Richer, more natural color**

Sony's power-packed 4K HDR Processor X1 and TRILUMINOS Pro technology faithfully reproduces a phenomenal range of rich, true-to-life colors.

### **Finer detail**

4K X-Reality PRO processing upscales pictures closer to true 4K quality. Images are sharpened and refined in real time, revealing extra detail from lower-resolution picture sources.

### **Smoother movement**

Motionflow XR ensures smoother, more natural reproduction of rapidly-moving on-screen images.

### **Installation flexibility to suit every environment**

The sleek, minimal design of the FW-65BZ35L brings impeccable style to any business environment. The display's elegant lines are further enhanced by practical touches for seamless integration in retail stores, colleges and corporate workspaces.

### **Wall-Mount Adjuster**

BRAVIA comes supplied with a Wall-Mount Adjuster, giving extra flexibility for mounting the display centrally in portrait or landscape orientation.

### **Side Mounted interfaces**

Signal connections, networking and other interfaces are conveniently side mounted for easy installation and access when the display is in portrait position.

### **Discreet Logo**

The Sony logo is discreetly positioned on the edge of the display's bezel – with nothing distracting your audience from immersive images.

### **Landscape, Portrait and Tilt**

Install BRAVIA in portrait or landscape orientation to suit any corporate or retail space. The

display can also be tilted at an angle for even greater flexibility.

### **Round the Clock Reliability**

Business never sleeps: BRAVIA is engineered for dependable 24/7 operation in the most challenging corporate and commercial environments.

### **Special settings for professional use**

Pro Settings mode makes doing business even easier, allowing you to customize BRAVIA settings and operating modes to suit the demands of corporate or retail environments. Disable input or remote control functions, schedule on/off times, remove labels and block buttons to avoid tampering when the screen's being used in public spaces. Customize and store display settings, then copy them easily from display to display via USB flash memory.

### **Get great pictures fast**

Forget fiddling with display settings. One Step Setting offers presets tuned to your environment, including meeting room, vivid signage, natural signage and graphics. Just pick a preset: BRAVIA instantly configures picture mode, input, control settings and more.

### **Easy multi-screen setup**

Configuring multiple screens for large display applications is easier than ever. The Multi Display Setting (MDS) app helps you create stunning video walls with multiple BRAVIA displays "tiled" together.

### **Easy integration**

BRAVIA BZ35L Series is made for today's connected world. There's seamless support for today's leading automation and control platforms, while open APIs simplify integration with other vendor solutions.

### **Large 32 GB internal storage**

The internal memory on some other displays is eaten up by the operating system, leaving little space for your own apps and content. FW-65BZ35L doubles internal storage from 16 GB to a generous 32 GB – giving loads more room on board to hold apps, photos, videos and digital signage.

### **Signage made simple**

Informing and guiding visitors with digital signage in retail stores and corporate spaces has never been simpler. Built-in support for HTML5 makes it easy to display interactive signage content on BRAVIA without the need for a dedicated set-top box, media player or PC. On-board BRAVIA Signage Free (BSF) software automatically plays out HTML content, video and photos when a USB stick memory is slipped into BRAVIA. It's that simple.

### **Wireless screen mirroring**

Easily mirror content wirelessly from handheld device onto BRAVIA with in-built support for Apple AirPlay and Google Chromecast.

### **Meet more easily**

Get Google Meet from Google Play Store, and pair BRAVIA with a compatible webcam for easy

video meetings.

### With BRAVIA, sustainability in every scene

With growing demand for ever larger display screens, there is also the risk of greater resource and energy use. However, Sony's sustainability commitments are realizing efficiency gains from product development right through to customers' viewing screens.

## Specification

Accessories	
Wall-mount adjuster (Bundled) *depending on the region.	Yes
Table-top stand (Optional) *depending on the region.	Yes
Audio Specs	
Speaker Position	Down Firing
